 Summary

Full-Stack Software Engineer specializing in AI-powered healthcare systems, cloud computing, and scalable SaaS platforms. Experienced in building production applications with React, Flutter, FastAPI, and modern DevOps practices. Passionate about leveraging technology to solve real-world problems in healthcare and enterprise.

 Education

B.Sc. Software Engineering — Iqra University, Islamabad (2022–2026)

CGPA: 8+ / Active in tech community

Intermediate in Computer Science — Punjab College, Rawalpindi (2020–2022)

Strong foundation in programming and DSA

 Technical Skills

Frontend: React 19, Next.js, Tailwind CSS, Framer Motion, Material Design 3

Mobile: Flutter, Dart, TensorFlow Lite, Firebase

Backend: Python, FastAPI, Node.js, Express.js, REST APIs

Databases: PostgreSQL, MySQL, Redis, Supabase, Prisma

Cloud & DevOps: AWS, GCP, Docker, CI/CD, Linux, Git/GitHub

AI/ML: TensorFlow, NLP, Transfer Learning, Data Pipelines

 Experience

Freelance Full Stack Developer (2024–Present)

Delivered 5+ production applications for clients. Built hospital management systems, AI-powered diagnostic tools, and SaaS platforms using React, Flutter, Node.js, and cloud deployment.

Gohar Medical Trust — Hospital Management System (2024–2025)

Designed and deployed a comprehensive digital hospital system serving 500+ daily patients. Reduced patient registration time by 83% and eliminated double-booking entirely.

Projects

Medical Referral Agent (FYP) — AI Diagnostic & Referral System

ML model achieving 92% accuracy. Flutter mobile app with offline inference via TensorFlow Lite. FastAPI backend with encrypted health records.

AI SaaS Starter Kit — Production-Ready SaaS Foundation

Complete auth, AI chat with 5+ providers, subscription management, admin dashboard, analytics — all open source.

Certifications

Google Cloud Digital Leader — 2025

AWS Cloud Practitioner — 2025

Meta Front-End Developer — 2024

GitHub Actions & CI/CD — 2024

Languages

English — Professional Working Proficiency

Urdu — Native

MA Mehtab Akbar

Guiding the future, one line at a time. Passionate about Cloud, DevOps, automation, and building high-performance software systems.
